To
The Secretary, Higher Education
Government of Assam

Sub: Participation of Assam University in admission of UG programme in affiliated colleges without CUET score.

Sir

It is learnt that the admission of students for UG programmes in Colleges of Assam shall be held in two stages: first without CUET score and subsequently when CUET result are declared, the admission shall be held for students who want to be admitted with CUET score. In view of the above; there is a need to review the earlier decision by Assam University to go for 100% admission through CUET in the first round of admission and subsequently the vacant seats to be filled up without CUET score; otherwise the University shall not be able to participate in admission process without CUET score which is likely to be held earlier. Under, the circumstances, Assam University held a meeting of all Principal's of affiliated colleges today to discuss the matter. The members in the meeting unanimously opined that the University should participate in the admission process without CUET score, if any. The members stressed that it is necessary to admit quality students who shall be available at initial stages of admission and fill up as many seats as possible. Accordingly, the University in review of its earlier decision resolved to admit 80% of seats without CUET score i.e open for all students based on HS marks; and, rest 20% seats through CUET score. If any seats remain vacant thereafter (out of the seats allocated for admission with CUET score), the same shall be subsequently filled up by admitting students without CUET score.

The changes are required to be accommodated in the SAMARTH portal and if any notice is issued about opening of admission through SAMARTH portal, the same may be taken into account.

The matter is accordingly submitted to you for information and necessary direction to concerned section/department in this regard.

(Dr P K Nath)

Registrar, Assam University
